

Submitter: Amanda St Thomas  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

To whom it may concern:

I oppose this unconstitutional attempt to subvert our 2A rights by imposing onerous restrictions on law abiding citizens. The problem with crime is not the access to firearms or ammunition by the majority of gun owners, it is the abject failure of this states current leadership with regards to punishment for crime and criminals. Citizens have had ENOUGH of the abdication of local government to do their jobs. Place restrictions on the criminals, NOT the people who bear the burden of the criminal actions.

Sincerely,  
A. St. Thomas
