

Submitter: Matthew Hunt

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill/measures are a clear infringement on the 2nd amendment. This bill will only effect law abiding citizens. From a bipartisan standpoint, many people use guns/magazines for hunting and self defense. This will harm them. It will also harm that thousands that work in the industry that provide their families and support our communities.

I am very confident it will do nothing to curve the awful crimes, but it will affect the people that are victims of these exact crimes that the bill is trying help. I am not in support and think it's going to cause more harm than good to our beautiful state.
