

Submitter: Christina Hammond  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

Hello,

Please allow me to submit my opposition of this bill. I am a proud, law abiding woman and avid hunter. My family has been blessed in promoting each generation the skills to be lawful, compassionate hunters. We are taught to care for our firearms, keep them secure and in a safe manor. These new restrictions will only turn law abiding citizens into criminals immediately. I have lived my life to always follow the rules and laws set forth but I would now be seen the same as a criminal. Not by robbing and stealing but by pure fact I lawfully own and use firearms. The new rules to keep and own them would create numerous hardships as they haven't even been established and set into motion. Gun owners follow strict guidelines already to get them. The firearms used in criminal activities are by people that already do not follow or respected the laws for their use. The bill only helps the criminals continue to take advantage of those of us that work hard for our things as they will continue to be treated with a slap if the hand.
