HB3075

The Second Amendment is very clear.

Shall not be Infringed.

Because the founding fathers knew that self defense is also necessary for a strong militia. The very reason this country has never had a ground force invasion is because of this country's armed citizens that can quickly form militias and repel any armed force. Not to mention that effective self defense is a God given right.

What you Oregon lawmakers are doing is unconstitutional, what the people in Portland, Salem and Eugene voted for was unconstitutional. If this is implemented then it will be brought down by the Supreme Court, wasting millions of tax dollars in legal funds. Stop attacking law abiding citizens who just want to be left alone.
