Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill is a direct contradiction to our United States and Oregon State Constitutions!  
This bill stands only to weaken my ability to protect my family. Any body who supports this is a fool to think that criminals will respect this law. There for it only stands effect and weaken law abiding citizens. It will also turn many, many into criminals if they don't forfeit items they currently and legally own.
