

Submitter: Kendal Pelton

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose any further regulation or permitting system for firearms and ammunition. The 2nd amendment is to regulate the government from the people not the government to regulate the people. Oregon needs to fix the mental health and justice system so people are back to education, respect and proper usage. Criminals do not care what laws are made they will do as they will.
