Having reviewed the text of HB 3075 re:

1. Requiring classes that don't exist.
2. Tasking OSP with processes that aren't funded.
- 2a. During the 'hiatus' NOTHING was done to plus up the OSP in preparation for this.
3. The absurd claim that this bill will 'save lives'.
4. And a multitude of cumbersome burdens that can't be solved with the stroke of the governor's pen.

Any simpleton can see that this bill is ill-conceived, and worse.

Furthermore -

A partisan legislative body such as this has a nauseating history of stripping Oregonians of their gun-rights.

No matter what gets passed in the name of safety: ITS NEVER ENOUGH. YOU ALWAYS COME BACK FOR MORE.

The end goal of this ridiculous game is the ultimate misery and pain of Oregonians, not the other way around. Once we are disarmed...

Don't do this. Let this bill die in committee. Today.
