Sad state of affairs for Citizens of Oregon. There is no equity in the system as it currently sits. Any rebuke to even the most egregious of intrusion in the lives of Tax Paying Citizens is met with an obstinance that resembles a child who doesn't want to eat its peas. I did read several of the "support" testimonies, and was not shocked at all that they were to a post, formulated exactly the same with a few words to make them appear the words of an individual citizen "Now lets go save some lives", at the end of nearly every "support" post. This is hard core socialism in action and we, as American Citizens deserve so much better from "our" elected "leadership". I do believe that eventually even those who follow, lock step, these autocrats, will at some point say "enough", and vote for equitable, logical, non-agenda driven leaders. I oppose HB3075 and 114. All infringements on our Civil Rights should be opposed as, like dominos, your rights may surely follow. The autocrats lust for more power is, and shall always be, unquenchable, and best described in A. Camus's "The Alibi of Tyrants". Check it out, and prepare for continued infringements on your Civil Rights
