

Submitter: Damien Schlobohm

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB906

Chair Taylor, Vice Chair Bonham, and Members of the Committee, I ask you support this bill as it corrects an issue that impacts myself and my coworkers every single paycheck. Countless unknown pay codes and sub codes appear on every pay check and over the course of a year, I end up having paychecks that could be pages long. This makes it difficult to budget, plan ahead, and sometimes file taxes. These confusing paychecks also put me at risk for not catching errors such as over or under payments. I feel this bill provides a simple and common sense solution for workers on this longstanding issue. Thank you.
