Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or
Topic: HB2029

I am living the American Dream. I opened my own successful private counseling practice in 2018, but was recently nearly bankrupted by an abusive major insurance company when I followed the advice from their provider relations department. I verified their advice TWICE... with case numbers. They have ZERO accountability to providers, especially solo providers. Please restore balance to give those living the dream some modicum of protection. Thank you, Clinton McRay, LPC, MCAP, MA
