

Submitter: Alan Rowe

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill will do nothing to keep guns out of criminals possession. I am an ex law-enforcement, peace officer and strongly oppose this bill. This bill will do nothing to fight crime, but instead this bill takes away the rights of law abiding citizens and infringes upon our rights to protect our families.

Remember:

‘ the right of the people to keep and bear arms, shall not be infringed upon.’

This bill is a direct violation of our constitutional rights! Also, please remember that you all have been elected to represent all people, people like you, your family and us. Also, remember that elections have consequences. We cannot as elected leaders pander to political parties. Instead, we must represent everybody for the good of the people. When acting as our representatives you are called to ‘ do what is right and walk humbly before your Lord and God.’

Thank you for hearing my voice. I humbly ask, as a citizen, a taxpayer, and as one of the many people that this bill would impact, that you consider the gravity of this bill.

Blessings to you as our elected officials!
