

Submitter: Stephen Bateman
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I am in complete and in utter same of our state how the continue to try to take away rights. I don't see how they think taking away high capacity firearms will save lives or making people get permits and take classes will change anything either. It amazes me how stupid these people are. Maybe we should put our tax payers dollars to better use. There is way too to much waste of funds in our state we don't have the money or resources to do the extra classes or permits. That was already proven last time they tried this. They keep stealing money that is supposed to go other places for homeless camps and safe house for drug users. Huge waste of money should have never legalized drugs in the 1st place now that's costing everyone to fund that. Why doesn't Portland and Salem cut themselves off from the rest of the state and spend their small pot of money on the drug houses and homeless. Don't come crying to the rest of the red blooded Americans when your houses are being robbed because you are waiting for a class for a gun you purchased or a permit while your house is being robbed. It's not the guns that kill people and cause harm it's the person standing behind the gun. Guns don't kill people it's the people that are the problem. I don't see the state doing anything about drunk drivers or those under the influence of drugs killing people. They going to take cars away next. A gun is a tool no different than a car, hammer, computer, pencil, cellphone. It would be wonderful if the state officials would pull their heads out of the clouds and see that.
