Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Dear Members of the House Judiciary Committee,

It is EXTREMELY important for Oregon to have strict and appropriate gun regulation to keep our communities safe. I will be very proud to know that my State leads the country in bringing about this accountability. Gun sellers and owners must have background checks. Gun owners must have licenses and necessary training in use of firearms. Firearms should never be sold to minors. PLEASE do the right thing and do not let money or anything else override our safety. As a mental health professional I know that suicides in Oregon are ridiculously high. It is so very sad and senseless. Gun safety is one way to reduce lethality. Please Pass This Bill !

Thank you
