

Dear Oregon Lawmakers:

As a coalition of farms, farmers markets, small grocers, community partners, and advocates we are writing to **request your continued support of the Double Up Food Bucks program in the Oregon Department of Human Services' Self Sufficiency Budget (SB 5526)** .

Supporting Double Up Food Bucks (Double Up) means investing in families, farmers, and local economies all over our state. This vital program helps individuals using SNAP to access more fresh fruits and vegetables. For every dollar spent on SNAP-eligible foods at participating sites, shoppers receive an additional dollar to spend on Oregon-grown fruits and vegetables. There are 216 farmers markets, farm stands, CSA programs, and small, culturally specific grocers who offer Double Up in 34 of Oregon's 36 counties.

"Double Up remains a vital program for families, farmers, and local economies across Oregon." says Rachael Ward, the Executive Director of Farmers Market Fund (FMF). "FMF is thrilled to partner with ODHS to offer this program in conjunction with our CSA and grocery partners. In the coming biennium, **we will focus on expanding Double Up to every county in the state** and growing our outreach efforts to attract new shoppers, while sustaining benefits for returning customers."

For over a decade, Double Up has connected SNAP participants with Oregon grown produce, facilitating almost **\$19 million in SNAP and Double Up sales** since 2016. A recent economic impact assessment showed the power of Double Up to strengthen localized economies. Providing incentives helped families on tight budgets to free up funds for spending on other vital purchases like housing and health care. In 2024 over **\$6 million in Oregon labor income** was created due to the additional spending that Double Up made possible.

Double Up is a highly cost effective health care intervention, with participants **eating more fruits and vegetables than the average American** and reporting improvements to their physical, mental, and social health. A recent study found that Double Up dollars redeemed in 2024 alone created up to **\$8.8 million in avoided healthcare costs to the state** over a participant's lifetime.

Continued investment in Double Up from the State is essential to leveraging federal matching dollars and growing the impact of the program. As the farmers, ranchers, small businesses, and community members in your districts we urge you to fully fund the Double Up Food Bucks program within SB 5526.

Sincerely,
291 Food System Stakeholders in Oregon

3. **Abigail Kaplan, Community member.** Portland 97212. *"The farmers market builds local community, supports small businesses, and provides fresh produce. It's the highlight of my week. The Double Up program makes it accessible to more people - and those people deserve to enjoy those benefits. I started going to the farmers market because of the Double Up program - at the time, I was in an AmeriCorps program making 13k per year and would not have been able to afford it otherwise. Now that my financial situation has improved, I've continued going to the market and gladly pay full price. The farmers market should be for everyone, including and especially low income folks. The Double Up program bridges the gap between farmers being paid fairly for their work and pricing that is accessible to more people."*

The Double Up Food Bucks program increases the customer base of my clients, as it makes their products more accessible to community members who would otherwise not be able to afford them. Increased sales to families and individuals helps bolster the financial viability of my clients."*
9. **Alexie Smith community member.** SE Stephens St Portland 97214. *"Make a large difference in my monthly food bill."*
10. **Alison Sexauer, Community Member.** Thompson Creek Rd Jacksonville 97530. *"The Double Up Food Bucks program has been a game-changer in Oregon, particularly in the Rogue Valley, where it strengthens local farms, increases access to fresh food, and boosts community resilience. This win-win-win initiative supports farmers by directing more SNAP dollars to local produce, consumers by doubling their purchasing power for fresh, nutritious food, and the community by keeping more food dollars circulating in the regional economy. The program has been so successful that it inspired Protein Bucks, a local expansion funded in part by Coordinated Care Organizations (CCOs). Protein Bucks matches the DUFB \$20 with an additional \$10 specifically for eggs, nuts, and meat,*

effectively turning \$20 in SNAP benefits into \$50 of the freshest, most nutrient-dense local food, all while ensuring that every dollar supports farmers and ranchers in our region. With \$4.34 million in renewed funding on the table during the 2025 Oregon Legislative Session, now is the time to advocate for continued investment in Double Up Food Bucks—a program that improves health, strengthens farms, and builds a thriving local food economy.”

11. **Aloha Community Farmers' Market:** Kyra Ramsay - Market Manager: SW Farmington Rd Aloha, 97007 *“Our market is the singular gathering space in our community in unincorporated Washington County. The Double Up Food Bucks Program is crucial to our Aloha Community in getting nutritious healthy foods for those facing food insecurity. By increasing the purchasing power of folks facing limited food access, especially fresh produce, which might otherwise be out of reach due to cost constraints. SNAP and DUFB are a major source of income for our family farms, market communities and small businesses. The statewide impact of this program cannot be overstated. It is vital, especially for rural and underserved communities with limited or no options for fresh fruits and vegetables within a reasonable distance.”*
19. **Anne Richardson, Community member.** Beaverton Hillsdale Hwy Portland, 97239. *“I am a volunteer at my local farmers' market and I see the folks that come and use SNAP benefits. Young, old, in-between. They come with kids. Or folks bring their elders who need support—helping them shop and have access to healthy food. When we tell them they can “double up,” there is often palatable relief on their faces. And gratitude. They leave with their totes filled with an array of*

colors—fruits, veggies, grains. What a simple yet effective way to help folks who may be stretching every dollar to feed themselves and loved ones healthy food.”

106. **Familias en Acción:** Alejandra Gurrola, Nutritional Health Program Manager. Portland 97212. *"DUFB helps shoppers bring home more fruits and vegetables and gives family farmers a financial boost, while supporting local economies. Food is critical for our well being and is a huge need in our Latino/x communities. Due to structural racism and a lack of opportunity in the communities that need it most, food insecurity is linked to high levels of toxic stress, and it limits the capacity vulnerable communities of color have to meet their basic needs. Double Up Food Bucks allows community members to access more fruits and vegetables for their families. Hungry adults and children have higher rates of mental health issues like depression and post-traumatic stress syndrome and are at higher risk of having chronic diseases. Food is a human right and many Oregonians struggle and worry about where the next meal will come from due to eligibility, stigma, and misinformation associated with that eligibility. We must take bold steps now to continue to support families around hunger in Oregon. At Familias en Acción, we know that when we all have access to food, our families' health and well-being will improve, and our economy will thrive when our communities are healthy and able to contribute back. This will be true in every corner of Oregon—in rural, urban, and suburban communities alike. When all of our neighbors are getting the food that they need, all of Oregon thrives."*

SW Vermont St Portland, 97219. *"Double Up Food Bucks provides critical financial assistance to our lower-income community members who would not otherwise have affordable access to fresh, healthy foods sold at farmers markets. The program helps us connect our neighbors to the farmers who grow their food, increasing our community health and vitality. It helps provide access to healthy, locally grown food to our community while supporting local farmers. I meet people every week who rely on the double up program to feed their families. From retired adults to young families, double up is integral to providing access to fresh produce." "I hand out DUFB cards at our market, which gives me direct feedback weekly of how much this means to the shoppers and how grateful they are for the program. Also, what an unexpectedly large number of people rely on this program even in this relatively affluent neighborhood." "As a farmers market organizer I have seen the economic, health, and environmental benefits of DUFB for shoppers, local farmers, and farmland itself. DUFB makes locally grown, healthy food available for low-income shoppers that they would not have otherwise. The prices farmers need to charge to stay on their feet can be too expensive for many people, and DUFB helps bridge that gap."*

150. **Ivonne Rivero, Former DOUBLE UP FOOD BUCKS AMBASSADOR,** Latinx Community. 97206. *"We know that in this beautiful state the income is unequal, that prices are going up at a rate that makes it almost impossible for low income folks, students, single mother, veterans and retired people (all of those who must pay over 50% of their income in rent, heating or cooling medications and childcare) to afford the healthy, fresh foods that we all need for both our physical and mental health. We are looking at the inequities of public policies that are persecuting most of the people who were raising the foods for our tables, people whose greatest desire is having a job and working while we our state as most others are undergoing enormous displacement and we are seeing the harvests at risk of not being picked. The natural beauty and the quality of our institutions have, for at least the last two decades, attracted new residents whose incomes are higher and can afford the exorbitant rents that we are seeing. As a Legislator, I ask to consider that we must build a safety net for the displacement of thousands of people, and these are not just the most humble of workers... but now even government workers are finding suddenly jobless...In order to keep our families fed and strong, we need to support of our electeds to make sensible decisions; and keeping families fed and above water is a sensible decision in the face of enormous and unexpected cuts to every form of community investment, in the light of making government "profitable" for a selected few. These programs are not only providing food security to those in need, but they are also directly benefiting local farmers and food vendors by increasing their sales and sustaining their livelihoods. I have seen the positive impact of the DUFB program first hand at my job. Folks that come to the market are immensely grateful that this program exists in our community and many would otherwise not be able to shop at our market. This highlights one reason why it is important for me. It is a program that gives access to fresh, high quality, healthy produce to people who would otherwise not have the financial ability or knowledge to do so. It is a great asset to the farmers and other vendors to help keep their business running. Without programs and organizations like this my community would eventually be a food desert, dependent on large grocery chains. Part of my duties as a market lead include helping people utilize the DUFB program. I see how many people benefit from this program."*

203. **Linda Ruswinkle, Community member.** NE 7th Ave Portland 97232. *"With federal funding for many programs in limbo and with ongoing federal layoffs, it is important to support our hungry neighbors while at the same time supporting our local farmers is critical. It is ridiculous to truck food over many miles when it could be grown and used locally. We need a robust local farm community. Double Up helps with both of these issues."*
204. **Lindsey Belleau, community member.** W 18th Ave Eugene 97402. *"The Double Up program means that my children can get the nutrition their growing bodies need, and do better with school work. Nutrition is the foundation of success. Many families are struggling to afford the basics. I have a medical issue that will require surgery and I've lost a lot of work because of it. If I didn't have Double Up, this last year would have been so much worse. I cannot even imagine. And not only does it mean my kids can eat healthy, I get a chance at eating healthy too. My health condition requires that I lose weight and many days I'm not able to eat very much. While I prepare for surgery, at least I am able to give my body it's best chance for success by nourishing it when I do eat. There are no words to describe how much Double Up means to me personally. It also enriches the community and keeps dollars local. It really is a humbling feeling to be able to shake the hands of the people that grew the food my children are about to eat. Eating locally also ensures the produce is still at*

peak quality and that it didn't travel from outside of my county. Organic produce is also crucial to soil quality, which leads to a healthier planet. When you think about it, the Double Up program doesn't just benefit low income families. It's an entire ripple effect reaching it's benefit to ways we may not see for some time to come."

In 2024 alone, we distributed Double Up to 2006 families living within our community of Oregon City and greater Clackamas County. This program is vital to decreasing food insecurity for our SNAP recipients and literally changes their buying power. This benefits our local economy and our small farms, the majority of which travel 6 miles or less from their farm to our market. Revenue goes directly to our farms, bolstering our local economy and strengthening earnings for small farms at risk of grant funding freezes, climate disruptions and additional negative impacts caused by environmental challenges. 306. **South Waterfront Farmers Market:** Lucinda Klicker, Farmers Market Manager. S River Pkwy Portland, 97239. *“We are proud to offer a \$20 Double Up Food Bucks match at the farmers market for customers shopping with SNAP. We’ve seen the impact of the program on the community by seeing participation and empowerment in community members who would otherwise feel unwelcome at a farmers market due to cost barriers. Our neighborhood farmers market is situated among high rise apartments and a low income housing building, it is impactful to have a gathering*

space where all neighbors can come together and support local food producers and farmers. We've also seen the impact that the Double Up program has had on our small farms, their sales have gone up thanks to Double Up dollars being directly spent at farm stalls. Each week we see shoppers going home with more produce and flats of berries because of their increased purchasing power using Double Up Food Bucks."

308. **St. Johns Farmers Market:** Amii Chong, Executive Director; Julia Preszler, Market Manager: N Richmond Ave Portland 97203. *"Our SNAP and Double Up Food Bucks/Produce Match programs are a win-win. They empower customers with EBT cards to better access locally-grown, nutrient-dense produce AND put more money into the pockets of our small, local farmers, who often struggle to sustain financially. In 2024, the St. Johns Farmers Market processed 1,098 Double Up Food Bucks/Produce Match transactions. About 10% of the customers we helped were brand-new to the program." "In 2024 St. Johns Farmers Market distributed \$52,286 in food access dollars to community members in need, so they could shop for locally grown, fresh, healthy food at St. Johns Farmers Market and in turn support the local farmers and food producers in our community. This is a win-win-win for community members experiencing food insecurity, local farmers and food producers, and St. Johns Farmers Market, which is proud to have facilitated this access to fresh food. We could not have achieved this without the support of Double Up Food Bucks, and we firmly believe in the importance of renewing this funding to continue to alleviate food insecurity for our most vulnerable neighbors."*

310. **Stewards Valley Farm:** Taylor Dinsmore, farmer. S Bremer Rd Canby 97013. *"Double Up Food Bucks gives people access to local food in a variety of ways. Our customers use it at the farmer's market as well as to subscribe to our csa program. It's a vital program for the health of our community."*
311. **Storybook Farm:** Nicki Passarella, Farm owner. SE Langensand Rd Sandy, 97055, *"DUFB is a win-win-win. It provides funding and resources to directly support local farmers, provide nutrient-dense foods to our community members and creates a space for connection. WE ALL WIN WITH DOUBLE UP FOOD BUCKS!"*
312. **Sun Gold Farm LLC:** Vicki and Chris Hertel, Farmer. NW Evers Rd Forest Grove. *"Our family farm's main source of income is direct sales and the SNAP and Double Up programs have helped us to provide nourishing food to a broader range of our community. Through our farm stand and farmers markets DUFB has been able to directly support and feed those who need it most with good, natural food."*
313. **Sun Love Farm:** Melissa Streng, Farmer. S Brunner Rd Oregon City 97045. *"The double up food bucks program has made our produce available to families that otherwise would not be able to afford our nutritious produce through both a CSA program and through the farmer's market. Additionally, the DUFB funding has helped to ensure that customers in our community are able to purchase our food and our farm remains viable. It is a huge challenge to successfully farm and the hardest part is always selling the produce. Additionally, DUFB brings more folks out to the farmer's market, which builds community and creates more sales opportunities for all the vendors at the*

market, not just the farmer's that accept DUFB. This program has helped my farm to become a successful viable farm and has provided healthy food to so many families. It has been a success on multiple levels and I deeply hope that the funding continues."

314. **Sunny Capper, Community member.** Brookings 97415. *"This helps community members and producers immensely! As someone who has participated in it, I can attest that it was extremely beneficial. I also would avoid going to the supermarket so I could use the double up bucks at the farmers market to extent the value, get better quality food and support local farmers."*

341. **Valley Flora:** Zoe Bradbury DeSurra. Hwy 101 Langlois 97450. *"In our rural region on the southern Oregon coast there isn't an abundance of farmers markets, farmstands, or even grocery stores, and as a result people have very limited access to fresh produce. Many families rely on SNAP to afford their monthly groceries, which restricts their access to fresh vegetables and fruit even more. The Double Up Food Bucks program has made our community supported agriculture (CSA) program accessible to folks who otherwise would never be able to afford it, all the while supporting local family farmers like us. It's a win-win-win for low income families, farmers, and public health. Please support this program with ongoing funding!"*

347. **Westfir Oakridge Community Farmers Market:** Valerie Nguyen, market manager. Westfir 97492. *"We run a nonprofit farmers market in a rural food insecure, low-income community of about 4,000 citizens. We didn't start a farmers market for it to be a boutique, exclusive experience that only a few people could afford. We fully credit the DUFB program with our farmer's market ability to achieve our goals of supporting small local farms and making a healthier diet more possible for everyone. It truly benefits everyone, even people who do not qualify for SNAP/DUFB, because it improves sales of fresh veggies, fruits and plant starts. It reduces purchasing anxiety and helps the market provide our community with a social space of joy and sharing that has been a refuge for mental health, knowledge exchange and positive connections."*
348. **Whimsy Supper Club:** Talus Fritze-Moor, community member and food business owner. Bellfountain Rd. It's a win-win for everyone!"*
359. **Woodstock Farmers Market:** Lucinda Klicker, Farmers Market Manager. SE Woodstock Blvd Portland, 97206. *"Providing a match of \$20 to our customers shopping with SNAP is vital to our market's mission to provide access for all to quality fresh produce, address food insecurity, represent community diversity and strengthen neighborhood relationships through our support of local farmers and by providing a central gathering place. At our market the Double Up program is heavily relied on by our community of market goers and the farmers who receive a high portion of their sales through Double Up Food Bucks and SNAP dollars. In 2024 our small farms redeemed a total of \$21,000.00 in Double Up Food Bucks over the span of a 5 month market season. I have*

personal experience benefitting from the Double Up program during times of financial and food insecurity. Shopping at the farmers market with Double Up Food Bucks allowed my family to remain excited about food and connected to healthy eating through periods of hardship. Shopping at the farmers market with SNAP was empowering thanks to the Double Up program.”

360. **Working Theory Farm:** Capers Rumph – Director of Farm Operations. SE Davis Rd Hillsboro 97123. *“The Double Up Program makes a huge impact for the families that receive it (and the farms, too!). Doubling SNAP dollars for specifically fresh vegetables and fruits means that families don’t have to make as many hard choices about which calories to spend their finite budgets on – choosing more expensive, nutrient dense fruits and vegetables over cheaper, emptier calories becomes affordable, i.e. possible. When our community members are all well nourished we all do better. Likewise when more people are able to shop at local farms, those dollars recirculate within that local community supporting everyone. It’s a win win.”*
361. **WyldEarth Farms:** Tara Harris. Cave Junction 97523. *“My community can make their food stamps go further and it helps support local farmers who supply healthy foods to the community.”*

364. **Yep Yep Organic Farm:** Jason Waligoske, Farmer. Dexter Rd Dexter 97431. *“The DUFB program encourages low-income families to make healthier choices. These choices not only prevent mental and health care costs but also support the development of healthy, sane children. It also helps increase the sales of small, local, organic farms, leading to a more resilient food system.”*
365. **Zara Baldwin, Community Member.** NE Gilsan St. Portland 97232. *“Double up food bucks helped me and my family through a tough time. While I no longer receive SNAP benefits, I still see the value and impact it has on my community. When I did receive SNAP, it allowed me to feed me and my family fresh produce throughout the entire market season. I was able to get the high quality produce that wasn’t otherwise available to me at the time. Plus, the high-quality fresh from the farm nature of the produce I was able to buy meant it lasted longer in my pantry and didn’t go to waste. I have raved about this program to the people in my community and would be devastated if it went away. All Oregonians should have access to farm fresh produce grown locally no matter their budget.”*
366. **Zenger Farm:** Kristie Winberg Farmer. SE Foster Rd Portland 97266. *“This program allows us to create accessible pathways to local produced, nutritious foods at a fair cost to the farmer without having to charge vulnerable populations more than they can afford. This program allows us to compete with grocery stores and online delivery services without having to extract labor from farm laborers and is helpful in seeking business and human sustainability.”*
367. **Zephyr Organics:** Bryan Allan, Co-owner. NW Old Wilson River Rd Gales Creek, 97117. *“Being able to provide healthy, local produce to all of our neighbors, even those who do not have a high income, is very important to our community farm. We want everyone to be able to participate in the local food economy.”*
