Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

This is another "Plan B" bill to prevent any further public challenge to M114 which was just declared to be Constitutional by the leftist Oregon Court of Appeals (foregone conclusion). It's just another step in the Democrats' long-term plan to disarm law-abiding citizens while having little or no impact on crime. Holding this hearing is merely more virtue signaling by the Democrat leadership: you have no intention of defeating this bill.
