

Submitter: Anne S Wagner

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

My husband and I support the establishment of a state gun dealer licensing program. If both you and we believe that having our grandsons "trained and licensed" to drive a dangerous weapon (vehicle) on the streets where your partner, spouse, children, grandchildren walk, is important, and, please believe us when we say you do!!, Why on Earth could this measure which does Not prohibit people from owning weapons, be any different? Licensure is sane, not prohibitive except for those society has already determined are a danger!

Please vote for dealer licensing laws. And thank you, truly, for the service you give us. Anne & John Wagner
