House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

This is wrong and unconstitutional, you will be killing small businesses of pawn shops as well as locally owned gun shops/ gunsmiths. This isn't right and the logic behind it is absurd. We already have to pass a background check to purchase firearms, I hold an Oregon as well as Arizona concealed carry permit as well as have passed federal background checks and now I'm going to have to pass more firearm training and get permits? Drugs were made illegal and that doesn't keep it out of the hands of criminals, all you're doing is making it harder and harder for honest people that go and do it legally and pass background checks for their firearms to obtain firearms and ammunition.
