

Submitter: Hans Radtke

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I support HB3075-1. Please pass it out of the Judiciary Committee so that Measure 114 can be fully implemented. I voted for this Measure and studied many of the details. I am deeply concerned that the number one cause of death in this country of youth under 18 is from a bullet entering the body. This is not what we expect in a civil society. Please help us all to reduce homicides and suicides. Thank you.
