

Submitter: Jason Williams

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This law does nothing for safety, it is simply a bleeding heart law to make some feel like they are doing good. In reality it is stripping law abiding citizens from protecting themselves and others. Responsibly armed citizens can actually save lives in an active shooter situation. Criminals don't obey laws, that's why they are Criminals. Don't make laws to cripple the good guys.
