Measure, Appointment or Topic: HB3075

I strongly oppose 3075 and HB 114. There is zero proof that these bills will do anything to save even one life. What they will do is turn hundreds of thousands of law abiding gun owners into criminals. They will waste countless tax dollars that could be spent to support our law enforcement so they can uphold and enforce the laws that we already have. These bills will make it even harder for a law abiding citizen of Oregon to buy a firearm while doing nothing to prevent criminals from getting guns. History has shown that criminals don't legally buy guns so placing even more restrictions won't affect them in any way.
