

Submitter: Kathryn Sundermann

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As a retired teacher I went through many lockdown drills with my students. Children are being terrorized by having to practice what to do in the event of a live shooter in their school. I have watched children cry and cower under their desks. This is just wrong.

Measure 114 is sensible regulation of guns. It does not ban guns.

Please get this legislation implemented as soon as possible.
