Measure, Appointment or Topic: HB3075

This measure and all its provisions are inherently racist and classist, seeking to deprive poor and disadvantaged communities of the means to resist not only federal tyranny from ICE, but also from the scores of violent racists and white supremacists being released into these same communities by state courts.

Our minorities, poor, and LGBTQIA+ would be unfairly burdened by this legislation, both financially by having to pay fees for permits and instruction.

This would also promote bullying from the patriarchy in the form of undue scrutiny from racist law enforcement, and unfairly limit our ability to #RESIST the Trumpist regime and its jackboots.

It's bullying, and it's wrong! SHAME!
