

Submitter: Monica Fetzer

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I helped get this measure onto the ballot to be voted on. It's the only measure I've ever felt passionate enough about to approach strangers to get their signatures. I believe this is the best way to get legislation that addresses the epidemic of gun violence in our state. I believe guns should require a permit. Why in the world should they not? I also believe high-capacity magazines have no place in our civilian populace. We must address this epidemic. Please pass this out of committee and support measure 114. Oregon deserves it.
