

Submitter: Gabriel Wihtol

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2963

Enforcing laws that reduce illegal high speed mopeds or similar devices on local bike ways and paths is critical to the safety and enjoyment of pedestrians! I am particularly worried about children learning to ride their bikes on bike paths being hit or scared by high speed motorbikes. Everyone should be able to enjoy bike paths without fear of gas powered vehicles coming through them. Please vote yes!
