HB3075

The right to keep and bear arms is our constitutional right and shall not be infringed! Any attempt to do so is tyranny and our duty as Americans to remove such tyranny. Gun control does nothing to protect people or lower crime. Criminals do not care about your regulations or policies. The states with the strictest gun control policies are also the states with the highest gun violence. You want to lower crime and protect people, let any law abiding citizen carry a gun. Criminals are less likely to commit crime when the odds of getting shot by doing so go way up.
