Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I strongly oppose the entire bill 3075 and ballot measure 114.

As a war time US Army veteran, I didn't swear to defend the Constitution, just to have my rights violated by my State.

Requiring permits, and fees, in order to exercise a protected right is unconstitutional.

This is supported by case law.

As a sixth generation Oregonian, I will be satisfied when these infringements are corrected and my State again respects the liberty of her individuals.
