

Submitter: Arlot Langenfeld
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I am writing to express my serious concerns regarding HB 3075-1 and MZ114. I believe these measures place an undue and potentially unlawful burden on law-abiding firearm owners, particularly those from low-income backgrounds, single mothers, and minority communities. The financial implications of these bills could create significant hardship for many citizens attempting to exercise their Second Amendment rights.

Furthermore, I am deeply troubled by the apparent lack of focus on addressing the root causes of gun violence, specifically mental health issues. Neglecting comprehensive mental health support undermines any potential positive impact and disproportionately affects vulnerable populations.

I firmly believe that HB 3075 and MZ114 infringe upon the rights guaranteed by both the Oregon and United States Constitutions. The potential for protracted legal challenges and ultimately, overturning of these measures, presents a significant waste of taxpayer resources. A more effective approach would involve a collaborative effort focusing on mental health issues. I strongly urge you to reconsider these bills and prioritize solutions that address the underlying issues driving gun violence without compromising the constitutional rights of law-abiding citizens.

Sincerely,
A.L.
Lifetime Oregon Resident
