

Submitter: Joseph Leben

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am a grandparent and a parent of two teachers who have to endure shooter drills at school. I gathered signatures for this initiative and am very disappointed in the delay in implementing it. Most telling for me was when a woman who has a concealed carry permit signed the petition. When she moved to Oregon and got her Oregon concealed carry permit, she asked about training requirements and was appalled that none were required. Let's abide by the Oregon voters' wishes and begin using Measure 114's common sense requirements. Thank you.
