

Submitter: Tracy Richardson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I would just like to state that Bill 3075 is unconstitutional in so many ways. There is no permit program setup, which results in nobody can purchase a firearm for who knows how long. I possess firearms to hunt and protect my family. Thats it

Making someone pay for a right that is already theirs is also wrong. The amount you are proposing is way too high for someone who is in a lower income class.

Also, who gives you the right to determine what is a safety threat. That should be voted on. Our state has a very low probability of a mass shooting.
