House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I highly oppose HB 3075-1. It is a blatant over reach of our constitutional 2nd amendment rights. It would have no effects on gun violence, in fact it would increase as it takes away the ability of law abiding citizens to protect themselves. It will allow criminals to roam free knowing that victims will be less likely to defend themselves. It is a proven daily, that good people with guns prevent crimes from happening and becoming a victims.
