Measure, Appointment or Topic: HB3075

This turns a constitutionally guaranteed right into a purchased privilege. It does nothing to address the real problems of crime, mental illness, drugs or homelessness in Oregon. It will only affect citizens willing to follow the law and will have zero impact on criminal behavior or those individuals ability to obtain firearms. None of the requirements outlined are in place to provide the ability to be met to obtain a license to purchase. Definitely puts the cart before the horse. I urge you to oppose this as an unconstitutional infringement on our 2A rights.
