

Submitter: Shannon Perry

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

My grandson has been exposed to gun violence twice in his short life; twice too many. We all hear of mass shootings on a far too regular basis.

I support this measure because it tightens up an industry that allows access to guns that not be registered and other problems that might put guns in the hands of people who don't use them as intended. Please pass this bill.
