House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

50.8% of Oregonians own firearms, that's over 2 million gun owners, that number has been growing as of recently due to the failed policies of democrats who thought it would be wise to decriminalize the use of meth and fentanyl. Our city parks have been taken over by homeless people who have mental health issues and are addicted to the drugs you allowed them to use without consequence. The democrats have made our cities less safe and have done little to remedy the problems they've created. This bill will only make it burdensome and cost prohibitive for law abiding citizens to exercise our second amendment rights, it will put us at a disadvantage if faced with violence from one of the criminals democrats have released from prison early. Make no mistake, this bill does nothing to prevent the violent offenders from having standard capacity magazines, it does nothing to burden the criminals ability to obtain a firearm. Criminals don't use the background check system, it's well known that they use almost exclusively, stolen firearms. Yet, this law restricts law abiding Oregonians rights and puts a tax on our right to keep and bear arms. Criminals don't have to pay for a class that will have no effect on the violence being perpetrated on us, democrats seem to think the hardworking and honest citizens should have to though and for what purpose? To obtain a permit to purchase even though we're already subject to a background check? What low IQ individual came up with this nonsense? It's ridiculous and unconstitutional, it does not do anything to prevent crime or violence and no rational reasonable person could come to that conclusion after reading this authoritarian tyrannical pile of trash bill. This is nothing more than a continuation of the slow march to civilian disarmament and democrat tyranny. I oppose this bill and I will be sure that I make as many Oregonians aware of this as possible so the people can be informed when they vote in the upcoming election. The democrat party is a disgrace and this will be a stain on their already unpopular party.
