

Submitter: Eric Canon

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I worked to collect signatures in support of putting Measure 114 on the ballot. It passed. We have waited and waited for this to finally be found constitutional. Guns are a right, but the rights of victims of gun violence need to be respected, too. With ownership of guns come responsibilities. Guns in the wrong hands kill. I urge you to continue the work we started to move us to a sane policy on guns. Kids should not be practicing active shooter drills in our schools as they wonder about adults allowing them to be in danger. That's insanity. It's long past time for us to be responsible and confront our gun fetish.
