On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I strongly oppose HB 3075-1 as it is unconstitutional and a violation of the second amendment. We already have strict gun laws in place like background checks and registration through the ATF, We should not be wasting taxpayer dollars trying to make law abiding citizens criminals. Our problem in Oregon is not with firearms but with mental health and drugs flowing freely on the streets, more funding towards mental health/drug programs and services would greatly reduce not only crimes committed with firearms but also crimes in general.
