

Submitter: Christine Broussard
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

As a member of the queer community, who are actively being targeted and mischaracterized as “groomers,” and threatened publicly and regularly in the current political climate, I vehemently oppose this HB and its costly and onerous requirements. Wait times for permits, annual renewal, and the sheer cost are unreasonable for marginalized communities who are already financially disadvantaged. Law enforcement should not be spending more time on this than absolutely necessary and I don’t believe this will make us safer than what Measure 114 is already set up to do. Please vote no.
