Measure, Appointment or Topic: HB3075

My family and I are in opposition to Measure 114 and HB3075-1

Both violate the constitutions of Oregon and the United States. I'm firmly against them and urge that they not be passed. Our government should be working to preserve and protect our rights, not degrade them. The constitution was established to keep the government t in check, not the people. The 2nd amendment and the state constitutions are clear: shall not be infringed.
