Re: HB 3075

From: Trevor Herb

I am writing this letter in **OPPOSITION** of HB 3075.

This HB is an attack of all law-abiding citizens in our state. I am horrified as a citizen of our state that we have people in Salem who feel that attacking the rights of citizens is a good thing.

This HB will have a huge financial impact on the state, and local government to a tune of over \$50 million dollars. The red tape that these awful laws create are concerning to many. In an economy with many pondering how they are going survive, this state wants to burden its taxpayers with a firearm bill that is not needed, is unconstitutional, and financially irresponsible.

This bill has been written to be a burden to many citizens of our state. This bill may and or will put small business out of business, causing more financial harm to our citizens and a greater cost to our state.

I am asking each and everyone of you to strike this bill down.

Common sense needs to prevail in our state. Something I find lacking in Salem at times.
