HB3075

Oregon Article 1, Section 27 of the Oregon Constitution states that the people have the right to bear arms for the defense of themselves and the State, but the military shall be kept in strict subordination to the civil power. Our states courts and legislature know if they were being honest and unpartisan that measure 114 and HB 3075 violate the principles laid out in our second amendment and in the Oregon constitution. The partisan nature of our supermajority has given you all a permission slip to deem that ok to ignore, but at what cost? These laws violate our rights, unduly burden the citizens of Oregon from accessing their rights and frustrate the constitutionally protected ability to keep the state and military in "strict subordination". The language is very clear, and those who wrote it knew firearms technology would advance in the future as it had between the ratification of the US constitutions 2nd amendment and the ratification of the Oregon constitution.
