Measure, Appointment or Topic: HB3075

Measure 114 was ruled unconstitutional. This is the same bill under a different number. We are not California and I'm tired of the Oregon Democrats trying to turn Oregon into California and follow up California's gun laws all you're doing is putting restrictions on law abiding citizens. It doesn't matter the capacity of the magazine that you possess a criminal does not follow the law. All you're doing is infringing upon the free person and the citizens choice rather they want them or not if you don't want what you call high capacity magazines don't own them simple as that. Be smart enough to understand that it doesn't matter what gun law you try to put in place criminals don't follow the law. As for the proposed that we need to get a permit to purchase a gun does go against our constitution rights . You can put all the restrictions that you want in place the only people that will follow them once again are the people who follow the law it does not stop the criminals wake up people. You can argue that it's going to limit access to crime it won't all it's gonna do is hinder the free man and the law abiding citizens.
