Measure, Appointment or Topic:	HB3755

I 100% agree with this bill. As a retired dental hygienist I can not even begin to tell you how many times I had men and women in my dental chair who were having to sell their home because they could not afford the yearly increases in their property taxes. These people had often lived in these homes for many years, raised their families, payed off the mortgage, and hoped to live out the rest of their lives in their home. What they could not account for when they purchased the home 30, 40, or 50 years prior is that their property tax along with measures and bonds would increase more than their social security benefits. I feel that is wrong, and a disservice to that generation, to force them out of their homes and deny their American dream.
