

Submitter: LORRAINE MERCER
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I helped get Measure 114 on the ballot and voted for it. I am a teacher and lived every day of being in the classroom worrying about the possibility of a gunman coming in to our room to kill everyone. Everyday teachers had to live with the possibility of another horrible scenario of bloody and violent death with no way to protect students. This Measure was passed and has been held up too long. Please let common sense gun laws be in place.
