Measure, Appointment or Topic: HB3075

Dear Committee,

I am writing to express my deep concerns and opposition regarding the proposal of HB 3075. While I support sensible gun control legislation, I believe this proposal is deeply flawed and will disproportionately impact low-income voters and law-abiding citizens.

The state currently lacks the infrastructure necessary to effectively implement the required training and permitting processes. Additionally, this will create significant barriers, effectively disenfranchising those who cannot afford the time or financial resources to navigate a complex and overburdened system, in an effort to exercise a constitutional right. Moreover, the retroactive punishment of individuals for possessing magazines purchased legally during the period after December 8th 2022 is a clear violation of their constitutional rights according to Article 1, Section 9, clause 3.

We need a measured approach that prioritizes public safety while ensuring equitable access and upholding constitutional rights. I urge you to oppose HB 3075 and work towards a more responsible and effective solution.
