

Submitter: Korey Williams

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

These proposed laws and regulations will have a directly negative impact on law abiding citizens. Laws that are designed to stand in the way of law abiding citizens constitutional rights are most definitely an infringement of those rights. It will stop the ability to protect ourselves with arms that are already owned and are legal to own when purchased. This will force a financial burden on all, giving citizens no choice but to purchase non standard magazines and or new arms in some cases as not all arms support 10 round magazines. Not to mention the proposed permit and training course fees, which also undo hardships on those citizens. These proposed bills and laws are a direct assault on our rights as law abiding people and will put us at a disadvantage in protecting ourselves. If passed, most (LAW ABIDING CITIZENS) will become felons.
