

Submitter: Charles Niemann

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am an Oregon resident and voter. Please pass HB 3075-1 out of committee. There have been 5 gun fights outside of my 6 year old son's bedroom window. The police never make arrests and my family is at the mercy of God for protection. We don't have enough resources to move but we would in an instant if possible. However, even if we moved, where would we go in Oregon? It doesn't matter if you live in the city, suburbs, or country, Oregon is saturated with illegal guns and irresponsible gun owners. The only safe communities are the ones with high income zip codes where the police actually show up and make arrests. How can we claim to be a first world country if criminals can get away with firing 20 rifle rounds on NE Killingsworth st. without any consequence? Pass this bill if you care about the safety of children like mine. Pass this bill because we the voters passed it. Pass this bill because you never know if you will have to move out of your protected zip code someday. Pass this bill if you have the courage to do your job and serve our country.

Respectfully,

Charles Niemann
