

Submitter: Matthew Gierach

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This legislation further inhibits Oregon citizens' rights under the bill of rights' second amendment. The risks of infringing on our ability to defend ourselves greatly outweigh the goals of this bill. This is particularly relevant during these uncertain political times. Additionally, there is no demonstrable ability of state and local bureaucracy to provide unbiased or timely processing of the financially burdensome and time consuming process. The current system of background checks is sufficient. Therefore, I oppose this legislation.
