Measure, Appointment or Topic: HB3075

I am a nearly life-time gun owner. I worked for Measure 14, encouraging my friends and neighbors to vote for it. It contains common sense measures to weed out people who should not have guns and to lessen the lethality of assault rifles when they are directed at other people by crazies.

Please pass HB 3075. It doesn't violate my rights or anyone else's rights other than psychos.
