HB3075

I believe measure 114 and HB 3075-1 infringe upon our constitutional rights in both the Oregon and US Constitution. Criminalizing the law abiding citizens of the State of Oregon is taking steps in the wrong direction. Taking away our rights to protect ourselves is completely absurd. Passing these would put more power in the hands of the criminals. I believe in the safety of our citizens, but these are not the correct decisions to ensure our safety.
