

Submitter: Perry Rikli

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

To measure the buying and selling of firearms by gun dealers via a licensing program is the least that one department can do to analyze the current situation of gun availability in the state. Please, pass this measure to establish a baseline so that we residents know more about the state of guns being traded in this state. If gun dealers are not licensed or if they do not abide by licensing regulations, they should not be allowed to do business in the state.
