Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I strongly oppose Oregon House Bill 3075 as it shamelessly tramples on the Second Amendment rights of law-abiding citizens under the guise of public safety. By extending permit timelines to 60 days, hiking fees, and piling on eligibility hurdles, this bill constructs an oppressive bureaucratic maze that punishes responsible gun owners while doing little to curb actual crime. Requiring legal challenges at a single court in Marion County and carving out exemptions for privileged groups is authoritarian and exposes a blatant double standard. This partisan overreach, pushed by Democrats recycling a flawed and narrowly passed measure, ignores the root causes of violence and instead tightens the state's grip on individual liberty, proving once again that control, not safety, is the true aim. Oregonians deserve better than this constitutional betrayal.
